## Experience

---

### iOS Dev Trainee

Queens, NY

CodePath Bootcamp

September 2018 – Present

- Learning to integrate navigation, networking and authentication through project-focused iOS training inspired by professional bootcamps and facilitated by trained TAs.
- Drafting final project: live stream Thursday Night Football remotely on video chat with friends.

### Web Development Intern

Manhattan, NY

Kentro

June 2018 – August 2018

- Contributed to web-based components such as login page etc. built on ReactJS and Node.
- Exposed to how marketing, design & software teams collaborate in a startup environment.
- Familiarized with project-integrated productivity tools such as Slack, Trello and Github Organization.

### Project Manager

Queens, NY

CUNY Innovation Corps

March 2018 – May 2018

- Interviewed 30+ peers on textbook costs, home-cooked meals, finals-cram sessions, etc.
- Explored lean startup best practices in cohort sponsored by National Science Foundation.
- Awarded funding for group-to-group crowdsourcing idea.

### Director

Brooklyn, NY

TED Talks

August 2016 – June 2017

- Marketed event to 5k+ students, selected and prepared diverse keynotes from 40+ tryouts, presented budget to sponsors, designed website, moderated event, etc.
- Set event theme based on personal and peer struggles with social media.

## Hackathon Awards

---

### Cooper Union

October 2018

- Best use Google Cloud Platform. Developed iOS app which prepares outfits from personal wardrobe.

### JP Morgan Code for Good

October 2018

- Overall second place. Designed easy-to-grasp UX for the nonprofit SERJob's unemployed applicants.

### Developer Week NYC

June 2018

- Best Real-Time Communication. Built front-end for web app to Netflix binge on video chat with friends.
